Elysium Academy Private limited
November 2025

Co-Curricular

Project Presentation

Showcased innovative solutions and technical expertise by participating in a prestigious state-level project presentation at Velammal College of Engineering.

Volunteer

Spearheaded the "National Science Day Quiz Contest" as a dedicated volunteer, driving engagement and fostering scientific curiosity.

Job Description

I'm a python fullstack developer who enjoys building reliable, scalable, and efficient systems using Python (Django, Flask). I love working with SQL and NoSQL databases, creating clean APIs, solving complex logic, and bringing ideas to life behind the scenes to ensure apps run smoothly and securely.
